Request approval for the following ongoing OT for Eric Daly in support of the Niagara Falls site.

Thanks,
Eric

Subject: Niagara Falls Boulevard/Holy Trinity Cemetery/738 Upper Mountain Road Overtime Comp Request Pay Period 06 2017

Good Afternoon:

Below is the estimated overtime for Niagara Falls Boulevard Site Removal Action, Holy Trinity Removal Action and the 738 Upper Mountain Road Assessment based on the schedule I have worked out with property owners, operators and contractors. I previously submitted a more detailed explanation of work schedule and scope of work at the sites to assist management in justifying work schedules and overtime requests. Overtime and Travel Comp Requested is just an estimate. Please note, if work week ends earlier, I may be traveling on a Saturday and obtaining Travel Comp instead of Overtime.

Thanks.

Travel Date Range: 03/05/2017, 03/18/2017 (Pay Period 06)

Travel Comp Requested for PP 06 (Form Attached):

Travel Day on 03/05/2017: 8 hours

Travel Day on 03/18/2017: 8 hours

Overtime Hours Requested for PP 06:

03/06/2017 through 03/10/2017: Estimated 2 hours per day (**10 hours OT**)

03/11/2017: Estimated **8 hours**

03/13/2017 through 03/17/2017: Estimated 2 hours per day (10 hours OT)

Total Overtime Hours Estimated: 28 Hours

If I am not approved for any overtime already submitted or future OT anticipated, I need to know ASAP. This will change anticipated work schedules and other aspects of the site.

Justification:

OSC Daly will be traveling on 03/05/2017 via GOV to Niagara Falls, NY for Niagara Falls Boulevard Site to continue oversight the rebuild of the GNBC office area. There may also be some work performed at the Holy Trinity Cemetery Site, 738 Upper Mountain Road Site and the Steelworks Park Industrial Fire Site during this time range.

In order to maximize travel time, resources, EPA funding, property owner scheduling and contractor scheduling, all this work will be conducted continuously within this time range. It will require at least 9 to 10 hour work days to complete the described work during the regular work week. Work may also be necessary to be performed over the weekend. GNBC closes early on Saturday and is closed on Sunday which will allow for the noise and prevent disruption to the operators and patrons during the construction work being performed in the GNBC Office Area. EPA is also working with private residences/Town of Lewiston at the Holy Trinity Cemetery Site as well as 738 Upper Mountain Road Site. This work may also require accommodations outside normal business hours and additional overtime for personnel.

Lastly, removal funding is also limited at this time in order to complete specific task prior to temporary demobe. Therefore, work must be completed in a timely manner as to not extend daily on-site expenditures (equipment, lodging, per diem, personnel) unnecessarily.

The document with more specific breakdown of work being performed at the sites was forwarded previously and available upon request.

As in past request, the worst case scenario for overtime is requested but is dictated by the timing of the work and cannot be scheduled exactly.

Regards,

Eric
